TO BRAND BIKES AGAINST THEFT
Bicycle Riders Take Precautions to Prevent Bikes Being Stolen.

Every bicycle in El Paso is to be branded like cattle, if the suggestions made at the meeting of the Bicycle Protective association Friday night carries. It is also proposed to petition the city council to pass an ordinance requiring all bicycles to be registered and thus aid in the prevention of bicycle thefts. Merchants of El Paso are joining the organization, which now has a membership of about 35, and the chamber of commerce has promised to aid. Sheriff at Alamogordo, Deming, Las Cruces and other nearby towns are to be requested to be on the lookout for stolen bicycles and to aid in their recovery. For the purpose of investigating the cost of bicycles, a committee was appointed. This will be a membership button of some particular design and each member will have one.

LORIMER COMMITTEE READY TO REPORT

Will Recommend that Vote Be Taken During the Present Session.

Washington, D. C., May 11.—An agreement has been reached by the majority and minority members of the special committee investigating the election of senator Lorimer of Illinois and both reports will be filed in the senate Monday, May 20. Senator Lee of Tennessee, who made the announcement in the senate today, said the committee had also agreed that a vote on the case should be taken during this session of congress.

Senator Lee said a joint request from the two sides of the controversy would be presented when the reports were filed, for fixing a day during the session for a vote on the case. Washington, speaking for the friends of senator Lorimer, said there had never been any desire to postpone a vote, notwithstanding reports to the contrary. It is believed that the vote will be taken early in June.

Williams Contradicts Himself.
Edward J. Williams, testifying today in the hearing of the charges of Judge Robert W. Archibald, entangled himself in a maze of contradictory statements.

Williams, who was a partner with Judge Archibald in an alleged effort to procure Cull bank property from the Erie railroad, was particularly confused about an assignment contract executed last September with W. P. Boland of Scranton, in which Judge Archibald was referred to as a "silent partner."

First denying that he ever signed such a contract, then admitting that he did, but asserting a copy of the contract before the committee was not the one he signed, and finally declaring he had no good recollection about it. Williams was bombarded by questions. He contradicted himself repeatedly.

To Revise Patent Laws.
President Taft yesterday took a decided step toward revision of the patent laws that have remained practically unchanged since 1870. He sent a special message to congress asking for legislation to authorize him to appoint a commission to investigate the patent laws and report what changes were necessary to make them fit modern conditions.

The president referred to the recent "patent monopoly" decision of the supreme court, through which users of a certain machine were compelled to buy from the company which sold the machine a certain kind of ink for use with it, and enumerated five other reasons which he said demanded the revision of the patent law.

First was that large corporations bought patents for improvement and suppression of their manufacture. "The public," said the message, "never receives the benefit of such inventions during the life of the patent."

The president referred to the patent laws of other nations and wrote: "It is worthy of careful consideration whether legislation should be monopoly extending beyond the legitimate protection to inventors required to promote science and the useful arts, or the means of stifling improvement and the progress of the arts."

The president urged that procedure under the patent laws be simplified and that the burden of proving the invalidity of a patent be placed upon him who would infringe upon it.

MINERS MAY AGAIN STRIKE IN ENGLAND

Minimum Wage Law Has Broken Down—Stanton Again Heads Revolt.

London, England, May 11.—The recently enacted minimum wage law for miners has broken down and Great Britain is threatened with another great crisis in the coal trade. Indications point either to a stamped in favor of repudiating the act or a split in the miners' federation.

As before, South Wales is the storm center, the colliery laborers there objecting to the decisions of Lord St. Aldwin, chairman of the local wages board, which gives less than the five shillings a day which the men expected to obtain under the new act.

At a conference today at Cardiff, of the South Wales Miners' Federation, it was decided not to participate further in the work of the district wages board until the whole situation has been reviewed. A national conference has been called to meet in London next week.

G. B. Stanton, the Socialist leader, who took a prominent part in the recent strike, again heads the revolt. Stanton threatens to bring out all the transport workers in support of the miners, if it comes to a strike.

ROOSEVELT SAYS HE WILL NOT ATTEND CONVENTION.
Oyster Bay, May 11.—"I am not frightened," said Colonel Roosevelt last night, when his attention was called to reports that he had become alarmed at the course of the campaign and would attend the Republican national convention in Chicago as a proxy delegate from Brooklyn.

Colonel Roosevelt laughed at the report and added: "I am not going to Chicago."

Fifty-five delegates listed as "fusion" appeared on both Roosevelt and La Follette tickets.

The question as to how long you are going to continue a sufferer from indigestion, Dyspepsia, or out-of-order Stomach is merely a matter of how soon you begin taking some Diapiesin.
